Forecast For Wales
Issued by Met Office Exeter
at 0400 on Tuesday 19 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Persistent heavy rain and windy throughout. Heaviest over hills.

Today:
Heavy rain in the north continues, before heavy outbreaks of rain across the country towards the afternoon. Heaviest in the south later, but continuous throughout. Strong winds, with risk of coastal gales. Flooding risk in northern and central areas. Maximum temperature 11 deg C (52 deg F).

Tonight:
The rain continues, with heavy outbursts through the evening affecting many, especially in northernmost and southernmost areas. Widespread heavy rain, potentially torrential over higher ground, by dawn. Continued flooding risk. Minimum temperature 7 deg C (45 deg F).

Wednesday:
Widespread heavy rain, torrential over hills, through the morning, heaviest in the north before noon, and heaviest in the south in the afternoon. Continued flooding risk. Easing later, showers overnight. Maximum temperature 11 deg C (52 deg F).

Outlook for Thursday to Saturday:
Colder, with lighter winds on Thursday and Friday, with scattered showers and sunny spells. A dry start, before widespread rain through the morning, and showers later.
